

COURSE ON EMBRYOLOGY OF MARINE INVERTEBRATES

The Kandalaksha Gulf - June 09-30, 2019

Confirmed teachers

Maria Ina Arnone

Stazione Zoologica Anton Dohrn, Italy

Andreas Hejnol

Sars International Centre for Marine Molecular Biology, Norway

Andreas Wanninger

University of Vienna, Austria

Vladimir Malakhov

Lomonosov Moscow State University (MSU), Russia

Grigory Genikhovich

University of Vienna, Austria

Carsten Wolff

Humboldt University of Berlin, Germany

Alexander Ereskovsky

Mediterranean Institute of Biodiversity and Ecology, France

Carmen Andrikou

Sars International Centre for Marine Molecular Biology, Norway

Yulia Kraus

Lomonosov Moscow State University, Russia

Olga Kotenko

St.-Petersburg State University, Russia

Igor Kosevitch

Lomonosov Moscow State University, Russia

Andrey Lavrov

Lomonosov MSU, Russia

Andrey Prudkosky

Lomonosov MSU, Russia

Goals:

* the diversity of development based on the development of Porifera, Cnidaria, Annelida, Mollusca, Crustacea, Nematoda, Bryozoans, Echinodermata

* zoological drawings and microscopical methods (LM, SEM, CLSM)

* experimental techniques: immunocytochemistry, cell proliferation, cell lineages tracing, pharmacological modulation

Target group

MSc, PhD students, young researchers

Location

Pertzov White Sea Biological Station, Russia
